

METALIZED WOVEN PE FOAM Data Sheet

Features

1. Protect against radiant heat from ceilings or rooms
2. Easy to Install and contains no fibers making it Non allergenic, Non-Irritant and Non-Carcinogenic
3. Protects against summer heat gain and winter heat loss reducing energy requirements

Structure

No.	Material	Description	Value
1	Silver Layer	Metalized Polyester Film	12micron
2	Bond Layer	PE	/
3	Woven	Woven Fabric	60g/m2
4	Bond Layer	PE	/
5	FOAM	POLYETHYLENE	2mm

Physical Properties

Properties	Value
Total Weight	167g/m2
Material Thickness	2mm
Fungi Growth	Nil
Moisture Performance	unaffected
Pliability	No cracking

Roll size: 1.0m x 100mm/roll or Customized.
